### Abstract

45

The purpose of the study was to find out what management problems students have in memorizing the Al-Qur'an Juz Amma. This study uses a qualitative descriptive method while collecting data, the authors use three techniques, namely survey techniques which are used to find out things related to the Tahfiz learning system to obtain data, and interview techniques are used to seek information from students who follow Tahfiz Al-Qur'an, the documentation technique used to obtain information regarding the completeness of the tahfiz Al-Qur'an learning activities carried out, and the supporting data in this study, namely students and teachers of Madrasah Diniyah Takmiliah Awaliah Agam Tua Rejang Lebong Unity. Based on the results of the study, it can be concluded that the problems of students in memorizing the Al-Qur'an Juz Amma is indeed true, there is evidence that some students who follow Tahfiz Al-Qur'an get unsatisfactory grades. this is caused by several factors such as the factor of not being able to feel the pleasure of the Qur'an, the Lazy factor, the lack of motivation, the
